

## Client Referral Program

Earn extra money while helping Vensure grow. **It's a win-win.**

Our client referral program rewards the people who reward us. Your referral is one of the greatest compliments we can receive. This program is our way of thanking you!

## How Important Are Referrals to Us?

For someone outside our company to refer us is a vote of confidence in our company. Referrals affirm our good work, and we don't take them lightly. This is why we give back to the people who refer us.

## How Easy Are Referrals?

If someone mentions they are having IT problems, refer them. If someone mentions they are tired of doing payroll, refer them. If someone says they are struggling to recruit high-performing employees, refer them. You will have to submit your referral, but in return, you can receive a cash reward. It's that easy.

## The Referral Process

Simply submit your referral to [vensure.com/referrals](https://vensure.com/referrals) and fill out the form with all necessary information. This helps us:

- › Make sure that your referral gets tracked properly.
- › Ensure that the appropriate party is able to contact your referred business right away.

## After Submitting a Referral

- › We will assess the referral and pass it on to the correct specialist. They will reach out to the main contact of the business you referred and make sure we can help meet their business needs.
- › If your referral leads to new business for Vensure, you will receive your referral payout approximately three months after the first paid invoice.
